

## 2014 Year-End Match Campaign: GIVING THE GIFT OF HEALTH Impact Report | Winter 2015-16

### THE NEED

Of the 200 million people living in poverty in Latin America, an estimated 70% have no access to basic health care services. In the resource-limited settings of the Dominican Republic, Ecuador, and Guatemala where Timmy Global works, communities face extreme barriers to health.

Many of Timmy's patients live in rural and isolated areas where healthcare services are severely limited and logistical barriers to healthcare access are predominant. Cultural, linguistic, transportation, and economic challenges often mean that low-income patients cannot access healthcare systems without financial and other support.

### THE SOLUTION

Providing sustainable access to comprehensive, quality healthcare services for marginalized communities is a significant global challenge. In an effort to address this great need, Timmy Global Health and Focusing Philanthropy teamed up to give the gift of health to 7,800 patients in some of the most resource-limited settings of the Dominican Republic, Ecuador, and Guatemala.

Our goal was to raise enough funding to provide medicines, medical supplies, and referral care for 13 of Timmy's short-term medical service teams in 2015. But thanks to the overwhelming support of donors like you, we met and surpassed our goal, raising over \$208,000 - enough funding to support 26 total medical service trips and serve over 12,000 patients in 2015.

## IMPACT REPORT

Thanks to the incredible support of the donors that gave to our 2014 campaign, we generated enough funds to provide medicines, medical supplies, and referral care services on 26 of Timmy's 36 medical service trips in 2015. We were also able to invest in strengthening in-country medical providers as well as important pilot health programs.

Timmy's medical service trips, comprised of medical providers, nurses, pharmacists, and student volunteers, provide primary care services to patients via mobile medical clinics, and work with local partner organizations to help facilitate referrals for patients that need advanced procedures. Timmy's medical teams are highly efficient. In 2015, the cost to provide these quality healthcare services averaged \$13 per patient.

Your contribution to the "Give the Gift of Health Campaign" helped to fund 72% of Timmy's overall medical service trip programming in 2015. That means your support contributed to the following health programs:

### 26 MEDICAL SERVICE TRIPS

to Guatemala, Ecuador and the Dominican Republic

### 12,031 PATIENTS TREATED

through Timmy's medical service trips

### 127 CHILDREN

enrolled in our nutrition program

### 1,171 PATIENTS REFERRED

for advanced care, surgery, or lab work

### 71 HEALTH PROMOTERS

trained as local advocates in and for their communities

### 117 MIDWIVES TRAINED

in infant mortality prevention

### 100+ READING GLASSES

distributed in a new public health pilot project

### 10,000+ TOOTHBRUSHES & TOOTHPASTE TUBES

distributed to Timmy patients across all sites

### 228 FAMILIES

have access to safe water in the Amazon Basin

### 4,439 CHRONIC CONDITIONS

monitored throughout the year

### \$1.36 MILLION

worth of donated or steeply discounted medicine distributed

# THANK YOU FOR YOUR GENEROUS SUPPORT!

Your contributions ensure that we are able to deliver on our promise  
to build healthy futures worldwide.

We can't wait to see what we will accomplish together in 2016.
