

Reading Partners – Los Angeles 2019-2020 End of Year Report

I am pleased to share with you the enclosed report on Focusing Philanthropy’s partnership with Reading Partners during the 2019-2020 school year. Before COVID-19 school suspensions, we recently concluded mid-year assessments for every student enrolled in the program. Mid-year evaluations are an important internal tool for determining students’ progress, and enclosed is a snapshot of our accomplishments prior to COVID-19 related school closures. We are beyond thankful for your dedication to our work in Los Angeles, your support is crucial in helping us serve high-need students in under-resourced schools.

Your support allowed 342 K-4 students to receive more than 9,000 one-on-one, 45-minute tutoring sessions. Across our seven Los Angeles school sites, we trained and continuously coached 630 community tutors to mentor children; following an Individualized Reading Plan based on regular assessments of students' strengths and literacy gaps.
